Forecast for Friday 06 May 2022

Weather: Cloudy with heavy rain in the early hours, turning lighter and patchy after daybreak, then clearing south. Then brightening with sunny intervals, though thicker cloud will bring some light rain or showers to Ben Hope towards midday, pushing south across the area in the afternoon with the north brightening up again later.

Chance of cloud-free hill tops above 800m: Only 10% at dawn rising to 60% by afternoon. Falling 30% for a time in the cloudier zone moving south in the afternoon

Low cloud and visibility: At first, extensive cloud at 400-700m the lower bases in the west, with poor visibility in rain, then cloud breaking up towards midday with good visibility, away from any remaining patchy summit cloud. Another spell of lower cloud and poor visibility moving south in the afternoon.

Met Office Aberdeen Meteorologist's View
Some slight uncertainty in shower and cloud detail in the north in the afternoon.

Forecast for Saturday 07 May 2022
Weather: A mainly sunny start with any glen mist patches soon burning off. Some cloud bubbling up at higher levels perhaps bringing a very isolated light shower by afternoon. High cloud also increasing later in the day.

Maximum wind: Variable 5-10mph.

Chance of cloud-free hill tops above 800m: More than 90%.

Low cloud and visibility: Any glen mist patches soon clearing after daybreak. Good visibility with cloud remaining above the tops.

Temperature: **Glens:** Plus 1 Celsius at dawn rising to Plus 16 in the afternoon.
At 800m: Plus 4 rising to Plus 8 Celsius.
Freezing level: Above the summits.
